

β-Shielding

for use with Modular-Lab PharmTracer

β-shielding devices

A wide range of β-shielding accessories (Plexiglas®) is available for Modular-Lab PharmTracer increasing radiation safety when working with β-emitters.

Transport box and upper shell

The waste box (transport box) ensures the safe storage of the contaminated cassettes during the decay of the activity. The upper shell is attached to the waste box to guarantee a safe cassette-drop into the transport box.
