(2) The delivery period shall commence on the date the order is confirmed by Seller, or, if the Buyer is obligated to pay in advance, the date payment is received from him. Without prejudice to the Seller's rights arising from the Buyer's default, the dates and periods of performance shall be extended by the time the Buyer fails to meet his commitments under contractual or statutory provisions.

(3) In cases of force majeure and in the event of other circumstances which could not be foreseen at the time the contract was concluded (e.g., any unforeseeable and irresistible act of nature, any act of war (whether declared or not), invasion, revolution, insurrection, terrorism, fire, explosion, embargo, currency restriction, operational breakdowns of any kind, difficulties in obtaining materials or energy or in obtaining deliveries from suppliers, delays or shortages in transport, non-delivery or late delivery to the Seller, strikes, measures taken by governments in their sovereign capacity, epidemics, pandemics, or any other acts of a similar nature of force), for which Seller is not responsible and which substantially hinder the delivery or render it impossible, Seller shall be entitled to withdraw from the contract, if the circumstances are not of temporary character. 4 EXPORT CONTROL AND FOREIGN TRADE LAW

(1) To the extent permitted by law: Deliveries and services of the Seller are subject to relevant national and international export control regulations. The Buyer thus undertakes to (a) comply with all applicable trade sanctions, executive orders, regulations, embargoes, export control laws and restrictions imposed by the Federal Republic of Germany, the United States of America and/or the European Union and/or the United Nations (together "Export Regulations"), concerning goods (hardware and/or software and/or technology and related documents, regardless of the manner in which they are provided) or services manufactured and/or supplied by the Seller or its affiliates or subcontractors; (b) to obtain the pertinent export authorization or to make the export declarations required under applicable law and/or governmental regulations before the Seller exports or re-exports goods or parts thereof (collectively "Export Authorization"); and (c) to fully indemnify the Seller from all claims asserted against the Seller by authorities or other third parties due to the Buyer's failure to comply with the Export Regulations and to

reimburse the Seller for all damages and expenses incurred in this connection. The contractually agreed services of the Seller and each delivery of the goods or parts thereof are subject to the strict condition of full compliance with the Export Regulations and the obtaining of the Export Authorization. Delays due to export inspections or licensing procedures will suspend deadlines and delivery times. If at any time the goods, services or technologies manufactured, purchased, provided or delivered in accordance with the order confirmation may not be delivered in compliance with the applicable Export Regulations or the required Export Authorizations, the Seller will refrain from delivering the goods. In such case, the Seller may cancel the relevant order and/or delivery without liability. In particular, the Seller is entitled to refrain from delivering the goods to a destination, country or person directly or indirectly prohibited by Export Regulations. The Seller will notify the Buyer of the decision not to deliver goods to countries subject to corresponding Export Regulations via all specific information. The Buyer will refrain from delivery to a destination, country or person directly or indirectly prohibited by Export Regulations. Claims for damages by the Buyer due to such delays, if they are not the responsibility of the Seller, or such cancellation are excluded. The Buyer must comply with Export Regulations and obtain the necessary Export Authorization when passing on the goods supplied by the Seller (hardware and/or software and/or technology as well as associated documents, irrespective of the way in which they are made available) or the services provided by the Seller (including technical support of any kind) to third parties in Germany and abroad.

(2) The Importer/Buyer shall not sell, export or re-export, directly or indirectly, to the Russian Federation or for use in the Russian Federation any goods supplied under or in connection with this Agreement that fall under the scope of the applicable export control and foreign law regulations as amended from time to time, in particular of the European Union and the Federal Republic of Germany.

(3) The Importer/Buyer shall undertake its best efforts to ensure that the purpose of paragraph 2 is not frustrated by any third parties further down the commercial chain, including by possible resellers.

(4) The Importer/Buyer shall set up and maintain an adequate monitoring mechanism to detect conduct by any third parties further down the commercial chain, including by possible

resellers, that would frustrate the purpose of paragraph 2.

(5) Any violations of paragraph 2, 3 and 4 shall constitute a material breach of an essential element of this Agreement, and the Seller shall, in particular, be entitled to immediate extraordinary termination of the contractual relationship with the Buyer. Further claims for damages remain unaffected by such and are expressly reserved by the Seller.

(6) The Importer/Buyer shall immediately inform the Importer/Buyer at least in electronic form (§ 126a BGB, i.e. E-Mail) about any problems in applying paragraphs 2, 3 and 4, including any relevant activities by third parties that could frustrate the purpose of paragraph 2. The Importer/Buyer shall make available to the Seller any and all information concerning compliance with the obligations under paragraph 2, 3 and 4 within two (2) weeks of the simple request of such information.

5 PRICES AND TERMS OF PAYMENT

(1) Pricing for the agreed products and services shall be based on the relevant price lists as amended from time to time or based on defined quotations unless Buyer-specific prices have been agreed. Additional or special services shall be billed separately.

(2) The prices of the Seller are quoted in euro (EUR) or U.S. dollar (USD) plus the statutory value-added tax as valid at the time concerned. Costs of packaging, transport and possible transport insurance will be shown on the invoice separately.

(3) Unless agreed otherwise, payment shall be made without deduction within fourteen (14) days of the date of the invoice. If settlement is by bills of exchange or checks, payment shall be deemed to have been made when they are cashed.

(4) In case of default of payment by the Buyer, the Seller is entitled to charge a statutory rate. This does not exclude asserting claims for other damages.

(5) Moreover, notwithstanding Buyer's provisions to the contrary, we are entitled first to set off payments against the Buyer's older debts. The Buyer shall not be entitled to withhold payment on account of Buyer's counterclaims or to set it off against such counterclaims unless such counterclaims are uncontested or recognized by declaratory judgment.

(6) If, after concluding the contractual agreement with the Buyer, circumstances become known to the Seller which tend to substantially undermine confidence in Buyer's willingness or ability to pay, Seller is entitled,

notwithstanding agreements to the contrary, to make future deliveries and services contingent on advance payment or security.

6 WARRANTY

(1) The products supplied by the Seller shall be carefully inspected for obvious defects immediately after their arrival. The products shall be deemed to have been accepted, unless Seller receives a written notice of defects within ten (10) days of delivery. If, despite careful inspection, defects are not recognised, this period of notice shall apply from the time of discovery of the defects. Moreover, damage to the packaging and other obvious damage that occurred to the products in transit shall be reported to and confirmed in writing by the carrier, haulage contractor or other person charged with the execution of the dispatch at the moment the products are delivered. Buyer shall send a copy of the confirmation including pictures documenting the damage to us immediately.

(2) Seller warrants the products it sells to be free from defects in labor and materials/parts for a period of twelve (12) month or for the shelf life of product, whatever is shorter. The warranty period begins upon delivery. In case the product will be installed by Seller, the warranty period begins upon installation, but in no case later than ten (10) days after delivery.

(3) At Seller's request, products found to be defective shall be returned to Seller in the original packaging carriage paid. The necessary freight return costs will be refunded by Seller if the notice of defect is justified. Generators have to be returned in original packaging with all required labels, in particular provided with a valid leak test certificate, tightly sealed in a plastic bag to cover the generator from leakage and free of contamination. Packaging can only be done by an IATA 7 trained person.

(4) In case of defects, Seller is obligated to remedy them or to supply products free from defects within a reasonable period of time, the choice being left to the Seller. The Buyer shall not have the option of withdrawing from the order or reducing the purchase price until the removal of defects fails or does not take place within a reasonable period.

(5) The original manufacturer's warranty shall apply to equipment which forms part of the products, but which is not manufactured by the Seller. The Seller's warranty regarding equipment which forms part of the products, shall not exceed the warranty of the original manufacturer.

7 LIABILITY

(1) In all cases involving slight negligence, the Seller is exempt from any liability for loss or damages, in particular from liability due to breaches of duty arising from the contractual relationship and from statutory provisions, unless injury to life, limb or health of persons is concerned. Similarly, this exemption from liability does not apply to cases of breach of a substantial contractual obligation, but such liability shall be limited to compensation for typical, predictable damage for the respective contract.

(2) The aforementioned limitation of liability shall not apply to cases of liability without fault which are governed by law. However, it does apply in equal measure to the personal liability of the Seller's statutory and vicarious agents.

(3) The Seller cannot be held responsible for loss or damage attributable to any of the circumstances identified in Section 3 (3).

8 RESERVATION OF TITLE

(1) The Seller reserves the title to the products until payment for them is made in full (reserved products).

(2) If the Buyer defaults on his payments, Seller is entitled to bar the Buyer from using the reserved products and to take them back at Seller's discretion. Taking back the products constitutes a withdrawal from the contract only if Seller expressly declares this to be the case. If Seller takes back the products, Seller is authorised to sell them, the net proceeds being set off against the accounts payable by the Buyer.

(3) If the Buyer is not in default, he is entitled to sell the reserved products to third parties in the ordinary course of business. Already at this point, the Buyer assigns to Seller the claims he is entitled to from this sale to third parties, including any ancillary rights. The Buyer shall ensure that the claims resulting from this devolve upon Seller. Until further notice, the Buyer shall be entitled to collect the claims assigned to Seller in his own name and at his own expense. Seller is not entitled to revoke this authorisation so long as the Buyer meets his payment obligations arising from the business relationship. If conditions for revocation exist and if notice of revocation is given by Seller, then the Buyer shall be obligated to disclose the unpaid claims and their debtors, to obtain the information and documents necessary for collection and, without delay, to notify the debtor of the assignment.

(4) In the event of seizure of the reserved products by third parties, particularly in the event of attachment, the Buyer shall indicate that it is our property and inform us forthwith.

9 LIMITATION PERIODS

All claims shall become statute-barred after one (1) year of the delivery of the products. The regular limitation period according Section 195 BGB for other contractual and non-contractual claims against the Seller shall be three (3) years from the beginning of the statutory limitation period. Mandatory limitation periods shall remain unaffected.

10 TRADEMARKS

Buyer is not permitted to use Seller's product names, especially Seller's trademarks, on Buyer products or in any printed and advertising materials without Seller's prior written consent. The supply of products under a trademark shall not be construed as an agreement on the use of this trademark for the products manufactured from it.

11 CONCLUDING CLAUSES

(1) The legal relationships between the Seller and the Buyer are governed exclusively by the laws of the Federal Republic of Germany. The United Nations Convention on Contracts for the International Sale of Goods (CISG) shall not apply. However, prerequisites and effects of the retention of title pursuant to Section 7 are subject to the laws of the respective location of the product if and insofar the choice of governing law in favour of German law is not permitted or invalid.

(2) The legal venue for all national and international disputes arising directly or indirectly out of or in connection with this contractual relationship shall be Berlin, Germany. However, Seller is also entitled to take legal action at the general venue of the Buyer.

(3) If individual provisions of the present Terms and Conditions of Business or parts thereof are or become null and void, this shall not affect the validity of the remaining portion or of the remaining provisions. It shall be deemed to have been agreed that in the place of the provision or part thereof that is null and void, that legally valid provision shall apply, which, in a legally permissible manner, comes as close as possible to the economic objective pursued with the provision that is null and void. The same applies mutatis mutandis, if the contract should prove incomplete.

(1) The handling, purchase, sale, transport and cross-border delivery of radioactive substances are subject to certain legal provisions of the Federal Republic of Germany; they include, in particular, the Regulation on Protection from Ionising Radiation (*Verordnung über den Schutz vor Schäden durch ionisierende Strahlen*

(StrlSchV)). Within the European Union, the delivery of radioactive substances between EU member states is subject to Council Regulation (Euratom) No. 1493/93 of 8 June 1993 on shipments of radioactive substances between Member States.

(2) The dispatch of radioactive substances is subject to regulations on the transport of hazardous substances applicable to the mode of transport concerned (GGVSee/ADR, IATA Dangerous Goods Regulations etc.).
